About Us

At GreenLogic Lighting & Electric, **we are committed to helping our client partners secure a brighter future through our innovative LED lighting, energy efficiency, smart home, access & security solutions, and electric vehicle chargers.** Our team of experienced technicians are highly trained and certified, and our products are designed to provide maximum efficiency and reliability.

We offer cost-effective solutions that are tailored to meet the needs of commercial, industrial, and multifamily client partners. Our solutions are designed to help you save money and reduce your environmental impact without compromising on quality. **We prioritize quality and integrity** in the products and services we deliver, while striving to deliver the highest value for our client partners.

Browse through our catalog to learn more about the products and services we offer and how we can help you secure a brighter future. **Thank you for choosing GreenLogic Lighting & Electric.**

Our Mission

Providing Cost-Effective Solutions to Help Secure a Brighter Future

Our Vision

At Greenlogic, our mission is to provide our client partners with innovative and cost-effective green solutions that will reduce their energy costs, enhance their user experience, and promote a healthier and more environmentally conscious world. We strive to be the leading provider in sustainability, quality, and innovation.

Our Values

- **Sustainability:** We strive to create a brighter future for our client partners, our planet, and our communities through our energy-saving solutions.
- **Quality:** We prioritize quality in the products and services we deliver.
- **Integrity:** We conduct our business with honesty and integrity, ensuring that our client partners and partners can trust us.
- **Innovation:** We are constantly looking for new ways to improve our solutions and services.
- **Efficiency:** We strive to deliver the highest value for our client partners, with fast and optimized solutions.

Initial Site Assessment

A Greenlogic Consultant conducts a preliminary site survey at no cost or obligation to:

- Discovery Savings Opportunities
- Collect Equipment Data
- Determine Project Viability

Project Findings & Execution

Once a thorough analysis of the data is completed, our team will prepare a proposal based on the findings, tailored to the needs of the asset. This proposal will be presented in detail by your Greenlogic Consultant to assist you in making an educated decision based on but not limited to:

- Current & Projected Energy Usage Savings
- Reports
- Cost of Waiting Analysis
- ROI
- Energy Usage and Savings Available
- Efficiency & Smart Home Products
- Utility, Tax Incentives, Energy Rebates
- Safety and Aesthetics of the Asset

Our Customer Service Department will coordinate the installation for uninterrupted business operations, while our experienced Logistics Team provides professional installations at the time that best suits your asset. The results and savings begin immediately after the completion of the installation.

Our Process

Warranty, Service & Maintenance

All of our products comply with the highest industry standards and are backed by the original manufacturer's warranty which can be provided through our own Customer Service Department. We also provide a one year service warranty on installations.

LED

At GreenLogic Lighting & Electric, we offer a variety of LED services to meet the needs of our client partners. Our services include LED lighting retrofits, solar lights, wholesale products, lighting controls, energy audits, and utility rebates. Our LED lighting retrofits provide cost-effective solutions that are tailored to meet the needs of commercial, industrial, and multifamily client partners. We also offer solar lights which can be used to reduce energy consumption and increase savings. Our wholesale products provide client partners with high-quality LED lighting products at competitive prices. In addition, our lighting controls and energy audits can help you reduce your energy usage and increase your savings. Finally, our utility rebates can help you save money on your energy bills.

Access Control

Access Solutions

When it comes to the security of your apartment community, commercial property or business access control is extremely important. You'll want the building to remain as secure as possible, but without compromising on the convenience of access for those who need to get into the building. Access control systems allow you to do just that.

At Greenlogic, we service and install access control systems for all shapes and sizes of apartment communities, commercial and industrial buildings. If you are looking to implement an access control system or upgrade/repair an existing one, Greenlogic is the company to call. We install access control systems from several different brands, including DoorKing, ProDataKey, Butterfly BMX, Honeywell, Axis, Suprema, Schlage, HID, Liftmaster and Sure FI. These brands have been manufacturing top-notch access control systems for decades and have a proven history of quality and innovation.

Gate Automation

- Gate Operators
- Tele-Entry Units
- Highspeed Roll-up Doors

Metal Fabrication & Welding

- Drive & Pedestrian Walk Gates
- Welding & Metal Fabrication

Green Rewards

What is Green Rewards and who can get the Green Rewards?

Green rewards programs are reward programs for multifamily for taking action to improve sustainability and wellbeing on the property. These improvements include LED lighting, energy-efficient HVACs, WaterSense labeled low-flow fixtures, solar photovoltaic (Solar PV) systems, and more. GreenLogic is here to help you acquire those rewards with our products and services.

Electric Vehicle Charging Station

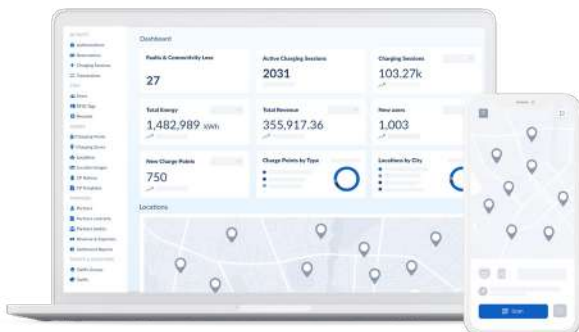

Greenlogic offers comprehensive services for electric vehicle (EV) owners, including installation, chargers, and an app. We provide professional installation of EV chargers, so you can be sure your charger is installed properly. We also offer a range of chargers to suit your needs, from Level 1 home chargers to Level 2 and DC Fast chargers. Plus, the Greenlogic app allows you to monitor and control your charger from anywhere. With all these services in one place, Greenlogic makes it easy to get the most out of your EV.

Greenlogic EVC 10, 48A is ready to handle the most powerful EV Batteries.

- **POWERFUL** - Up to 80A / 19.2kW of charging capacity.
- **COMPATIBLE** - SAE J1772 compliant, type 1 plug with 18ft cable.
- **CONVENIENT** - Adjust power as needed, 80A-48A, 48A-16A.
- **CONNECTED** - Complete with LAN connectivity (Wi-Fi or 4G optional), ensuring chargers are always online.
- **OCPP** - OCPP 1.6J helps you connect EV charger to the cloud.
- **DURABILITY** - IP65 and IK08 protection ratings, allowing for indoors or outdoors.
- **3 Years Limited Warranty**
- **1 Year Installation Warranty**

App for the Drivers and for the Community Platform features:
